## **DETAILED ACTION**

### ***Specification***

In view of the amendment filed on 05/10/2006, the Examiner withdraws Specification objections of the previous Office action

### ***Allowable Subject Matter***

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: claims 1-15 are allowed because the references cited fail to teach, as applicant has, a method and an apparatus for correcting the direct current offset portion (DC offset) of a first signal comprising phase shifting the first signal for obtaining a second signal, comparing the first signal and the second signal with an estimated DC offset, adjusting the estimated DC offset when the first signal and the second signal are found to be on different amplitude sides of said estimated DC offset, where the estimated DC offset is increased when the second signal is higher than the estimated DC offset and is decreased when the second signal is lower than the estimated DC offset, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
